

FIRST RESPONDERS CHILDREN'S FOUNDATION

COVID-19 RESPONSE FUND

POLICE, FIRE, EMT, MEDICAL PERSONNEL

As a first responder, you have been working around the clock to assess, alleviate, and help reduce the spread of COVID-19 throughout the United States. You are on the front lines answering calls - as you always do - at great risk of being exposed to this deadly virus. Because of your heroism, First Responders Children's Foundation, through the support of generous donors, is taking action by providing financial assistance to those affected.

Over the past 20 years, First Responders Children's Foundation has provided financial support to children who have lost a first responder parent in the line of duty as well as first responder families enduring financial hardship due to tragic circumstances. The Foundation also awards grants to first responder families in financial distress and supports programs operated by first responder organizations whose purpose is to benefit children or the communities in which they live.

First responders are on the front lines of the COVID-19 pandemic in every community across America, so First Responders Children's Foundation will provide support to first responder families who are enduring financial hardship due to the coronavirus outbreak.

Available COVID-19 Assistance Grants

- **\$1,000 grants** for first responders with financial hardship caused by COVID-19
- **Funeral expenses** for first responders who have died from COVID-19
